EUROPEAN FEDERATION OF RADIO OPERATED MODEL AUTOMOBILES

Sander de Graaf, Beekmansbos 53, 1971 BX IJmuiden, Netherlands

MUFFLERS UPDATED with INS BOXES

IJmuiden, March 16th 2009.

Dear Sportfriend,

Enclosed the muffler list for the 2009 season with some final updating as regards names and INS boxes. In the next weeks I will try to get all drawings from the mufflers on the EFRA website as PDF's, this will make it a little bit easier for technical inspections at the various races. With the decision to go back to the old mufflers from the 2007 season and some new homologated mufflers, we now have a large number of mufflers on the list. The noise level will be a little higher as in 2008, although the 3000 series of mufflers are still on the list, not many people will use them.

All manufacturers are working (I hope they do) on new designs based on 2007 muffler designs with an extra silencing unit on the tailpipe to bring the noise level down. It will not be easy, but it is important that we achieve a good noise level beginning of 2011. Some clubs in Europe have serious problems and more clubs will follow if EFRA does not try to comply with the environmental rules.

If that will finally mean that we will have to give up power, so will it be. It is important to bring that noise level down and we will push the manufacturer to show us some progress during this season and not wait till the end of 2010. Enjoy your racing in 2009 and if some-one has some good ideas to bring the levels down, both in 1/8th and or in 1/10th please send us a message.

1/8 scale mufflers.
