Re: Rule Clarification

Dear all,

following the first experience with the new rule regarding tyre treatment, the following rule clarification is necessary:

As written in the EFRA LS rules (EFRA Handbook 06, 5.3.7., page 132), it is not allowed to treat tyres in the pit area. As there are no product definitions available, that guarantee that the products are harmless for people and environment, only dry tyres are allowed to be brought into the pit area.

With best regards

Wolfgang Stumpf
