EUROPEAN FEDERATION OF RADIO OPERATED MODEL AUTOMOBILES

EFRA approval number on Body shells.

Dear Manufactures

According to EFRA rules should the unique EFRA approval number be permanent embossed in the approved body shell. Some manufacturers have followed that rule but far from everyone.

From the 1st January 2008 must all EFRA approved body shells have the unique EFRA approval number embossed in the body.

- For the 1/8 class must the number be embossed in such a place that it is visible all the time.
- For the 1/10 200mm IC and Electric Touring Class must the number embossed to the right upper edge of the windscreen when looking at the car from above into driving direction.

As a consequence of this will body shells that not have this unique EFRA approval number embossed failure to pass the technical inspection at EFRA events after the date mention above and by that be disqualified.

This information will also be published on the EFRA web page.

On behalf of EFRA

Gerhard Binder
EFRA Body Homologation Officer

Sander de Graaf
1/8 IC Track Chairman

Franky Noens
1/10 IC Track Chairman

Heiner Martin
Electric Track Chairman
