Section letter

Hello (again) my RC friends:

After our 2 Eurochamps season is not over. We still have 3 races more to come in the EFRA European calendar.

First race to come is the Barcelona International Race to be held in Montjuic Track, just besides the Olympic Stadium the weekend 8-9 August. Weather prediction and racing ambience are ensured at Barcelona with the attractive of holding a race inside a big city and pretty close to a major airport and sunny beaches.

NINCO, the HPI Hot Bodies importer for Spain is pretty close to the organizer, Racing Events, and so that strong rumours about possible presence of an 1/8 IC Buggy Off Road World Champion title holder are there.

Next on the EFRA calendar is the EFRA Grand Prix of Portugal at the next European Championship venue, Macanhas track in Guarda on the second weekend of September, 11-13.

This event is, as per the rules, the compulsory event to be held in the next European Championships track and venue to test facilities and if requirements are met so that if improvements are needed those can be carried out with enough time to have the best European Championship possible.

More information and registration online for this race are available at the brand new website for the event :

<http://www.osbeiros-rc.com/index.asp>

We have been informed that the website information, although good enough, will be growing in the next days; so that, mark it as a favourite one and re-check it in a few days, more improvements and attractive information will be there soon. Anyhow, registration on line is already open from the mentioned web page and most probably the most of the next year european title challengers will be there.

We will come back to you early September with a reminder about the last International race of the Season the one in October at the Leipzig Toy Fair and information about the Ifmar Worlds in Pattaya 2010.

With my best regards

Carlos Gomez
