EDITORIAL

2002-12-24

Another month has passed and we are at Christmas time...

Winter has come to Europe and racing has come indoor except on some sunny spots on the Mediterranean sea, the Christmas list of nearly everyone includes something new for the 2003 season and manufacturers are ready present us their new products on Nuremberg Fair.

EFRA Racing calendar 2003 has been settled down definitively and now the allocations are ready for closing dates and normal procedures.

Some slight adjustments to our racing calendar includes new venue in Austria for the European championship Formula1 on Large Scale.

Please keep paying attention to our web site, links to eurovenues are to be added soon making easier your travel plans for the racing season.

During this month we have had the World Championship 1/8 Off Road at Punta del Este (Uruguay), to keep on with the pattern, the EFRA block was the biggest one, in countries presents and as well on drivers attending (7 & 51), victory and world title has been for first time in history for a Roar driver, Greg Degani representing Kyosho.

The Spaniard Raul Peris obtained the third place just a few seconds away from FEMCA driver Kenji Osaka.

During that event our General Secretary Dallas Mathiesen hit the target of a new birthday, so that, his family of white teddy bears got a new member, congratulations.

Down there we finished as well the work regarding IFMAR constitutional changes and now the improvements are to be seen in the next few years.

On other side we have to congratulate the new elected ROAR President, Mr. Rick Wilson from California, he has been in charge of the promotions office during the precedent months and we hope to work in a collaborative way for the best of our sport.

The whole EFRA Board, from our President to the very last person on it, myself, whises all of you Merry Christmas and a happy new year 2003, and of course a good racing season 2003 full of friendship and plenty of satisfactory events.

Our friendly and helpful EFRA site <http://www.efra.se> is waiting your help to feed it up with information, and please, keep in mind that all the information has to be addressed to my email direction avarrc@clientes.euskaltel.es or if necessary to Section Chairmen ones.

Keep on racing
Yours
Carlos Gomez
