2003-1-25

Another month has passed and we are heading for a racing season...

Your (our) Race Calendar is online right now (Thanks to Dallas and our member countries help), check it out at http://www.efra.se/calendar_total.html

By double click on this link you will see the whole EFRA racing calendar with plenty of links to email directions of organizers and to the club or race websites. Sweet? Good, hats of to Dallas again...

First big event to come is the main winter Eurochamp, the electric track 1/12 on Montbrison France on the 7-9 March 2003.

For other electric events, usefull info has come to www.efra.se, good for drivers and organizers, the battery list valid from 1st April 2003.

I, as P.R. officer, would like to thanks the Norwegian federation for their useful link on their web page, <http://www.nrcbf.no> , it links that page to the efra-live area and trough that with www.efra.se, I highly recommend this way of link between the national federation page and the European federation one.

The new ROAR president has taken the chair at 1.1.2003 and one of his first steps has been to nominate Mrs. Dawn Sanchez for the post of Promotions Director on the new Roar board. As she is my new colleage in duties, now the welcome and my best wishes are with her.

My email box, avarrc@clientes.euskaltel.es ,has been busy with the info received from the various organizers of Eurochamps, the ones coming from <http://www.remoteworld.co.uk> , organizers of the 1/8 off road Eurochamp at Slough (GB), had been the most frequent ones , so that, please visit their website.

EFRA is working on the 2003 season, committee members will meet very soon to prepare agendas and general matters, hopefully results of this work will be seen soon on races.

The list of Advisory Associate Members of EFRA is growing and growing, our collaboration in this area is open to bona fide manufacturers and their representatives in Europe, check it out in our handbook or inform yourself by emailing me.

I keep on saying it: Our friendly and helpful EFRA site www.efra.se is waiting your help to feed it up with information, and please, keep in mind that all the information has to be addressed to my email direction avarrc@clientes.euskaltel.es or if necessary to Section Chairmen ones.

Keep on racing
Yours
Carlos Gomez
