MCCK goes LMCC

About the club:

The club was founded as Model Car Club Kockelscheuer (MCCK) in 1991 and has now about 50 members.

In the past 16 years we organized over 190 national and international races in all the different classes: 1/8 IC track, Large Scale and 1/10 electric track.

In Autumn 1999 we started with the construction of our new track and the first race was run on the 21st of may 2000.

We hosted the EC 1/8 “B” IC track in 2002, the EC 1/5 touring car in 2003 and the EC 1/8 “A” 2004.

A new clubhouse was added in autumn 2005.

The track-layout was modified a year later.

In 2008, the club merged together with the Luxembourg Model Racing Team (LMRT) and changed his name to LMCC, Luxembourg Model Car Club.

The Mini-Circuit “Ville de Luxembourg” is situated in a suburb of Luxembourg-City, the capital of Luxemburg, only 5 km from the city centre.

The track layout is very demanding, with a hairpin corner, fast chicanes, a “Laguna-Seca”- like downward chicane with 2 m level difference and a 10 ° banked curve.

Time schedule

Important:

The track will be closed from Monday 5th of May until Thursday 8th of May for track preparations.

The track will be opened Friday 9th of May for free practice.

There will be the possibility of free practice on Monday 12 of May (on request)
