

EUROPEAN FEDERATION OF RADIO OPERATED MODEL AUTOMOBILES

Race report EFRA GP 1/10th 200mm IC Track Madrid.

With around 100 drivers we start qualifying for this race, a lot of factory drivers were present, for testing their car for the EC later this year.

The track is an ideal 1/10 track good grip when it's dry, and flat.

Only the weather was not normal for this time of the year in Spain, cold and a lot of rain.

After disqualification from some top drivers for not marshalling in the heats, and driving on a track that was very wet, wet or almost dry we have this ranking.

After the sub finales where we lose a few top drivers, the semi finales started under almost dry conditions.

Both semi finales were very nice to see with close and fair racing.

Just before the final it start again with heavy raining. After a small delay the final start.

After one lap Darren Johnson take the lead and nobody was able to follow his tempo
