

Round 3.

Today Saturday 29th we started with round 3. After a wet night, rain started yesterday evening at about 20.00 hours, track is dry again. Sky is a little bit cloudy and temperatures at the moment about 20-24 degrees.

No changes in the top. Laptimes are not fast enough to drive 30 laps at the moment.

The only one coming very close in heat 10 was Andrea Lorenzi, driving 29 laps in 7.00.578

We will have to see if they can improve in round 4, but with the sun shining this will not be easy.

Andrea Lorenzi

Tim Wood

Simon Kurzbuch

John Ermen

Round 4.

Some clouds coming over the mountains during round 4 lowered the temperatures, so faster times were possible in the last heats. In the final heat 10 Andrea Lorenzi managed to do 30 laps again, but now in 7.11.141 making TQ. So it is the young Italian on spot number 1 tomorrow, followed by Tim Wood, Simon Kurzbuch and John Ermen.
