The twenty (20) direct nominatives allocations existing in sections 1/10 ICTrack and Large Scale are subject to the approval of their national federation for these drivers. Each member country if present at the section meeting is entitled to have at least one (1) place allocated in each section paid for.
- 3.6.2. At the Annual Conference, each Section establishes the allocations for next years Championships, following written application from member countries.
- 3.6.3. Whilst determining the allocations for each country, the following points should be discussed, in order of priority:
- a. total number of drivers;
  - b. international results at E.C./ W.C./ Grand Prix;
  - c. places taken up at the last E.C.;
  - d. number of International Licenses issued;
  - e. participation in international racing;
  - f. length of membership of EFRA.
- Separate procedure exist for Electric off road (see Appendix 3)
- 3.6.4. At the Annual Conference, the Chairman will propose the allocations-list to the Meeting. The Meeting may, within reason, discuss the proposed list and may ask for changes. In case of disputes, the Meeting can decide the dispute on a simple majority vote.
- 3.6.5. The procedure for allocating entries is also used for re-allocation unless otherwise stated so. 40 days before the EC and 60 days before a WC the places not taken up by the Countries will be reallocated by the Section Chairman. The entry forms list must be given to the Chairman 40 days before the EC. Failing to deliver these forms list in time will lead to re-allocation of the corresponding places. The Meeting may recommend preferential re-allocation of places to countries with small initial allocations. Preferential re-allocation places must be specified in the allocations list.
- 3.6.6. For a European Championship the host country is allowed 2 extra places in addition to their original allocation.
- 3.6.7. The defending section/class Champion is allocated 1 place with the sole exception of the B class Champion who is allocated 1 place at the immediate next year European Championship A.

- 3.6.8 For each European Championship (not including Open EC), places will be allocated at the AGM. Federations MUST then confirm their Final Number for each event to the relevant Section Chairman no later than 15th. Dec. following the AGM. EFRA will invoice the Federations according to the Confirmed Final Numbers (submitted by 15th. Dec.), with the amount being as detailed in GR 3.5.7 for the current year. Invoices will be sent to the Federations by the end of January and must be paid to the EFRA Treasurer no later than end of February. EFRA will pay the Organising Federation the full amount of the entry fee value (100%), based on the Confirmed Final Numbers (submitted by 15th. Dec.). EFRA takes NO portion of the allocated entry fees. The allocated entry fees will be paid to the Organising Federation at least one month before the event, unless a written agreement has been received by the Treasurer to effect payment in a different manner. EFRA will inform the Organising Federation the Confirmed Final Numbers that will be paid, by 1st. January.
- 3.6.9 Allocated places not paid by end of February may be reallocated to other countries by the Section Chairman. Re-allocation money will be paid to and retained by EFRA. EFRA will invoice each reallocation to the member countries without specifying the drivers' name etc. No money is allowed to be paid at the track. Reallocation money will be 1.1/2 times the normal entry fee, unless the final number of places allocated to the country in question is still less than, or the same as, the original application made (see GR 3.6.2). If additional reallocation places are awarded that increases the number of event entries to more than allocated at the AGM or the Confirmed Final Numbers (submitted by 15th. Dec.), EFRA will pay the organising country the additional numbers. The Section Chairman is responsible for controlling event allocations and must inform the EFRA treasurer the Confirmed Final Numbers for each Federation in order to pay the correct number of allocations to the organiser, otherwise EFRA pays the number of allocated places through the AGM.
- 3.6.10 For an IFMAR World Championship or IFMAR sanctioned event, places will be allocated at the AGM. Federations MUST then confirm their Final Number 'required' for each event to the relevant Section Chairman no later than 15th. Dec. following the AGM. (It should be noted that numbers "required" by Federations may not be possible to award, based on the number of allocations granted to EFRA). The entry fees are payable in \$US. in advance to the EFRA Treasurer. The entry fee is established by IFMAR and is subject to a 10% EFRA surcharge. The EFRA Treasurer will invoice member Federations separately for all WC allocations by the end of March and these must be paid by the end of April, or within one month of invoice in the case of re-allocations. Re-allocations will be charged at the normal entry fee rate. Once requested by a member country, no WC allocations can be cancelled or fees repaid.

8.2.2. During the free practice the frequency board must be in use.

8.2.3. An organised practice of only one series of only one class is optional. This organised practice should be used as a last rehearsal and test and must include official time-keeping (see 8.1.1.).

8.2.4. Practice on the race-days may be allowed till 30 minutes before the start of the first heat and after the prize-ceremony, but is not compulsory.

8.2.5. When the organizer has started organized practice, all drivers must respect the time schedule and the heats set. If a driver is caught cheating, for instance taking part in two different practice heats the driver will be disqualified from the race.

### **8.3. ARRANGEMENT OF THE HEATS**

8.3.1. For arranging the heats the organiser has to consider the skill of each driver. If the section has a grading system for licences, only drivers with the same grading may compete in the same heats.

8.3.2. One arrangement of heats may be used for one class only and must be different for following classes, with the purpose of finding different opponents.

8.3.3. Organisers may only change the composition of a heat when there is a serious and obvious problem that cannot be solved otherwise.

8.3.4. Prior to commencement of Qualifying Rounds, drivers should be re-grouped for qualifying heats taking into account controlled practice results and/or upon the Race Officials observations.

### **8.4. REGISTRATION**

8.4.1. At European Championships drivers registration must take place on the day prior to the race. Registration will be done by the National Team Manager.

During registration the drivers licence is checked. The licence numbers will be registered by the race organiser.

8.4.2. At EFRA Grand Prix and other EFRA sanctioned races, drivers registration may take place up till 30 minutes before the start of the first heat.

8.4.3. Driver's registration must involve:

- paying the entry fee (G.P's only, if not previously collected in advance);
- checking the required drivers license;
- receiving a list with the heat arrangement/timetable, including the frequencies used;
- receiving other necessary information

8.4.4. At every EFRA event, pre-registration may be requested by the organizers. Limit date for pre-registration must be 72 hours before the official limit time for registration. Pre-registration must involve:

- Name of driver
- Country
- The required drivers license
- EFRA License number
- At least two (2) frequencies

And may involve: Payment in advance, Sending a picture for accreditation.

## **8.5. FREQUENCIES AND FREQUENCY CHANGES**

8.5.1. Frequencies authorised by the governing body of the country concerned will be used.

8.5.2. In case of more than one driver using the same frequency during practice, the time for each driver must be divided equally.

8.5.3. In case of 2 drivers using the same frequency who qualify for the same semi-final or final, the faster qualified driver will keep his frequency and the other must change.

8.5.4. When a frequency change is required, up to 10 minutes time must be allowed following notification to carry out the change.

8.5.5. Slower qualifying drivers, who cannot or will not change their frequency, will not take part in the semi-final or final for which they have qualified.

8.5.6. If a driver must change his frequency before the start of a semi-final or final due to an error of the organisers, he will be allowed up to 10 minutes time to carry out the change.

8.5.7. If a driver finds his radio-equipment defective or has made an error in the selection of his crystals, the race will not be delayed beyond the schedule (see Racing Formats).

8.5.8. All frequencies and frequency changes must, at all times, be authorised, in writing, by the respective countries team manager and designated Official before the frequency is approved or the change is made.

8.5.9. No frequencies will be published on heat sheets and other public information. The frequencies used by the drivers will only be known to the race-officials.

8.5.10. A minimum of 10 kHz between frequencies must be used. A Frequency spacing of 20kHz between the competitors is recommended.

## **8.6. TRANSMITTER AND TRANSMITTER IMPOUND**

There can be 2 different kinds of transmitter:-

- a) Transmitters with a crystal that can be changed. See rules 8.6.1 / 8.6.3 /8.6.6
- b) Transmitters using a software decoding system that seeks for a free channel. Anybody using these kind of transmitters cannot ask for a delay for radio interference.

- 8.6.1. Transmitters (as in 8.6 a) must be constructed in such a manner, that the crystal can be changed and all competitors must have at least one alternative frequency available. Voltage supply to the transmitter must not exceed the manufacturer's type approval or National authority recommendations. Any driver found to be using external or additional battery packs must have proof that it conforms to the radio manufacturer's specifications. No changes or additions are allowed on the antenna unless authorised by the original manufacturer.
- 8.6.2. It is not allowed to use any form of telemetry with active transmission.  
Clarification: It is not allowed for any wireless signals to be transmitted from the car to an external source during the race that is judged to give the driver a competitive advantage during that particular race!
- 8.6.3. Spare transmitters must have the crystals removed and if possible must be kept out of the pits.
- 8.6.4. Transmitters may never be taken onto the track during racing.
- 8.6.5. Transmitters will be under the control of the Race Organisers.
- 8.6.6. At European Championships, the organizers must have the ability to verify that transmitters as detailed in 8.6 a) are operating correctly on the frequency that has been designated. EFRA will advise on any equipment that is needed.
- 8.6.7. Transmitter impound is not mandatory. It's up to the Race director in accordance with the EFRA representative to have an impound or not.
- 8.6.8. Should the Race Director and Organiser decide not to have a compulsory Transmitters Impound, then he (Race Director/Organiser) will be fully responsible for any situation that may occur (interferences, loss of control, injuries to persons, damages to equipments, etc...). This decision cannot be made through a vote of the Team managers.  
In case of any problem that could be considered as due to the lack of transmitter impound, then he (Race Director/Organiser) must immediately instigate the use of a compulsory transmitter impound.  
If a Transmitter Impound is not mandatory, then drivers can only switch on the transmitter when on the rostrum, or under supervision at Technical Inspection. In event of drivers marshaling, there must be a place next to the rostrum where they can place their transmitters while acting as marshals.
- 8.6.9. Transmitters are impounded immediately after a request by the Race Director or other Official. When impounded for the first time, transmitters are marked with heat-number or with identification number of the driver and are stored accordingly.
- 8.6.10. The transmitter impound must be close to or if possible on the rostrum. Transmitters must be protected against bad weather and stored in a safe and secure manner to prevent any damage to the transmitter.
- 8.6.11. Transmitters are only released for the next race immediately prior to the race start and must not be removed from the official area's or switched-on until the previous race has been declared finished. Transmitter-impound must take place immediately after the driver has completed his race or has finished driving and is leaving the drivers rostrum.
- 8.7. TECHNICAL INSPECTION**
- 8.7.1. Admission Inspection must always take place in an area protected from intrusion and before the start of the first heat. Cars must be presented for inspection as requested by the Officials any time during the meeting. Random checks on technical specifications can be done during the whole race. During Technical

Inspection only the Driver or Mechanic and the Team manager are entitled to be present in addition to Race Officials.

Under all circumstances it is the responsibility of the driver that his car is within the EFRA rules during a race meeting. If a car is found illegal during heats, sub-finals or final, the drivers result will be made void and the car has to stay in technical inspection until the result is published and the protest time is over.

- 8.7.2. At European Championships admission inspection must take place before the timed practice.
- 8.7.3. Technical inspection must include a thorough check-out of the car, weight limit, motor, muffler, tank, batteries, tyres, homologation of bodies, spoiler and overall dimensions. At European Championships, also of the transmitter (see 8.6.2.). Any tank found illegal after a heat or final shall be removed from the car and inspected for a second time after an initial "cool down period" of app. 15 minutes. This period of 15 minutes is only necessary in case the temperatures are above 20° C. The use of artificial aids to cool the car, tank and/or the fuel in the cool down period is forbidden. Only EFRA approved equipment for measuring are allowed. Only for IC track: Any tank found illegal after a heat or final will remain installed in the car and inspected for a second time after an initial "cool down period" of app. 15 minutes. This period of 15 minutes is only necessary in case the temperatures are above 20° C. The use of artificial aids to cool the car, tank and/or the fuel in the cool down period is forbidden. Only EFRA approved equipment for measuring are allowed.
- 8.7.4. Only one car per driver per class will be accepted. When transmitters are checked, spare-transmitters may also be presented for inspection.
- 8.7.5. When a car or a transmitter does not comply with the rules, changes may be carried out before presenting it for final admission.
- 8.7.6. Cars which have passed Technical Inspection must be marked with the drivers identification number, consisting the registration Entry number. This number must be applied inside the chassis plate.
- 8.7.7. For each competitor the race has officially started after technical inspection and admission of his car.
- 8.7.9. At European Championships, all cars of finalists go into a "Parc Fermé", immediately after the finish of the final and are inspected. Cars must remain with the Officials, untouched by drivers or mechanics. Any race distortion must be ignored. Inspection must be at least on:
- engine (motor)
  - tank capacity (batteries)
  - battery-pack and weight
  - chassis (dimensions)
- 8.7.10. Point 8.7.9. may be applied at EFRA Grand Prix or other EFRA sanctioned races, but is not compulsory.
- 8.7.11. The marked part of the car, normally the main chassis, may be changed. This would be subject to any technical criteria detailed within each Section. The original marked part must be left with the organisers until racing has finished
- 8.7.12. If a car is found to exceed the limits of dimensions on checking immediately after a race positive proof of race damage may prevent disqualification.  
If a car fails to pass the technical inspection, the driver's result/time is only discarded from that heat. In a final, or sub-final, it will mean last position of that final.
- 8.7.13. The car shall be measured for width, length and height using equipment as detailed in each Sections Technical rules. The equipment should be constructed

preferably from metal, or alternatively from high quality board suitably stiffened to prevent distortion.

The car must freely fit such equipment with any steer able wheels set in the straight ahead position, and comply with any maximum dimensions due to suspension movement that may exist in the Section rules.

The measurement of the wheelbase may be made by simple measurement of axle centre distances with suspension in any position but Race Directors should be prepared to make more exact checks in cases of doubt or protest. If is suggested that the wheels are removed and the wheel spindles are firmly placed on the blocks whilst accurate measurements are made.

- 8.7.14. The equipment used for technical inspection by the organiser must be made available to competitor's at all reasonable times.
- 8.7.15. All lists of approved equipment, (i.e. Bodies, mufflers and batteries) must be available on EFRA's webpage from the 1st of March every year. This is the finale lists for this year and no changes will be made before the next year. Equipment homologated during the year will not be put on the list until 1st of March next year

### **8.8. TEAM MANAGER MEETING**

- 8.8.1. A Team Managers Meeting must be held prior to each race and per class. It must be held in English.

The Race Director must call the meeting, Team-managers, Referees and other Officials must be present.

- 8.8.2. Team Manager meeting have to be completed at least 1 hour before the start of the first timed practice and the following points must be covered as a pre-race briefing:

- security and safety items;
- starting procedure, explanation;
- disciplinary questions;
- other items concerning the contestants;
- changes in the organisation or procedures;
- presentation of the main Officials and Referees.
- details of the penalties that may be awarded and the circumstances that they will be awarded under.
- details of the number of mechanics etc. authorised to enter the pit lane during racing.

Team managers are links to distribute this info to their respective drivers

### **8.9. FLAGS**

- 8.9.1. If flags are used then: Starting flag: the national flag of the country where the race is held.

Finish flag: chequered flag. Black flag: the car in question must immediately stop in the pit to receive instructions

- 8.9.2. The use of the black flag by the Referee (see 7.1.8.-9.):

- drivers who impede the progress of other participants;
- unsporting behaviour;
- participants driving in a manner deemed to be dangerous.

- 8.9.3. The use of the black flag by either the Referee or the Race Director (see 7.1.12.-13.):

- Vehicles judged to be in an undriveable or dangerous condition; after repairs have been carried out and after the Race Director or the Referee have approved the repair, they may continue their race;

- Vehicles which lose their bodies or other parts must immediately stop and carry out the necessary repairs after which they may re-start.

8.9.4. The black flag is operated by the Flagman (Starter), who receives his instructions to do so from either the Race Director or the Referee.

Under no circumstance may he use the black flag on his own authority.

8.9.5. No response to the black flag (verbal or physical) within three (3) laps will lead to disqualification of the concerned participant of the whole event.

## 8.10. PENALTY CAUSES

Time penalties should be awarded as stop and go penalties where possible. The Referee and/or Race Director should inform the driver and the penalty should be announced through the sound system and the driver should bring the car into the pit lane in the immediate next three (3) laps where it will stay the amount of time that the race organiser has decided depending on track layout. The 'stopped' time should be announced at the Team Managers Meeting. It will not be allowed any repair or refueling during the penalty being served.

In the case that there is no possibility to call a driver for a stop and go penalty (e.g during the last 2 -3 laps of the actual heat or final), the Referee and or Race Director will announce that a time penalty of 10 seconds will be applied. (Large scale: 1 lap). When a 10 sec. penalty is applied, the Organiser will ensure the following criteria is applied:-

- 1) The competitor receiving the 10 sec. penalty will have his actual Race Time (time on track) reduced by 10 secs.
- 2) Organiser to check results to establish the time of the last lap using the Penalised Race Time.
- 3) The organiser will amend the published time for the penalised driver to show a time of -- "the number of seconds over his Penalised Race Time, added to the normal Designated Race Time for drivers not receiving a penalty".

Examples:- Designated Race Time is 10 mins. (600 sec.). Driver X receives time penalty of 10 Sec., therefore his Penalised Race Time is 590 sec.

- 1) X crosses the timing loop at 595 sec. at the end of lap 12. His corrected time will be published as 12 laps in 605 sec.
- 2) X crosses the timing loop at 589 sec. on lap 12. He can continue and completes lap 13 at 620, (31 sec lap).

His corrected time will be published as 13 laps in 630 sec.

8.10.A Penalties in time, laps or even disqualification issued by EFRA Referee:

8.10.1. Unsporting behaviour (see 7.4.);

8.10.2. Deliberate corner-cutting;

8.10.3. When a car is re-entering the race other than from the point at which it left the track (not in case the engine has stopped and has to be re-started. Then the car re-enters the race from the pits);

8.10.4. When repairs are made to the car other than in the pit area off the track;

8.10.5. If the car is pushed over the finish-line (must finish under its own power);

8.10.6. Not returning to the pits after finishing a race;

8.10.7. Driving in the opposite direction of the race direction at any time.

8.10.B Penalties in time, laps or even disqualification, issued by the Race Director:

8.10.8. If orders of Race Officials are not obeyed;

8.10.9. If acting contrary to the EFRA Rules;

8.10.10. If a driver changes his complete car for whatever the reason;

8.10.11. If a driver changes his frequency without permission of the Race Director;

- 8.10.12. If a driver does not return his transmitter to the transmitter impound immediately after the finish of the race;
- 8.10.13. Penalties in time or laps may be issued by the time-keeping Official in the case of early starts (see starting procedures).
- 8.10.14. The bad behaviour and deportment of any competitor or assistant person to a competitor during the whole event, which could injure the image of the sport, may become subject to National or International (EFRA) sanction;
- 8.10.15. All Warnings and penalties must be noted on the result sheet and on the result board for the drivers (preferably in red).
- 8.10.C Drugs
- 8.10.16 If drugs or alcoholic impacts a competitor, competitor mechanics or an Official, the penalties for a competitor will be immediate disqualification. An official and competitors mechanics will immediately be taken out of service.
- 8.11. PROTESTS**
- 8.11.1. Only drivers participating in the race may enter a protest.
- 8.11.2. At European Championships a protest can only be made through the Team Manager.
- 8.11.3. Protests may concern:
- the Organisation (act against the rules);
  - Officials (act against the rules);
  - Results (only when proof can be presented showing the result is wrong);
  - Other competitors (acting contrary to the rules to the disadvantage of the one entering the protest or the one the Team Manager is representing).
- 8.11.4. Only written protests, handed over to the Race Director within 20 minutes after the publication of results of the heat or occasion to which it concerns, will be considered.
- 8.11.5. 100 € or equivalent in the host countries currency has to be paid to the Race Director, on behalf of EFRA, who will only then accept the protest.  
The time of receipt of the protest must be recorded.
- 8.11.6. The protest must contain relevant information for the Race Director to be able to discuss the protest and decide.
- 8.11.7. The Race Director together with either the Referee(s), the Timekeeping Supervisor or the International Jury, will deal with the protest and decide. This decision is final.
- 8.11.8. The decision must be made within 30 minutes after the acceptance of the protest. Only for important reasons and when the International Jury has to meet, may the decision be delayed to 60 minutes max.
- 8.11.9. When a protest concerns semi- or finalist, either the decision must be taken 10 minutes before the start the latest, or the start must be delayed until 10 minutes after the decision.
- 8.11.10. After the final race, there will be a "protest period" of 10 minutes after the provisional results have been published in writing on the score-board.  
For this purpose, the publishing time of the provisional results must be noted down on the result-sheet.  
During these 10 minutes, protests against the results may be presented to the Race Director who will then act according 8.11.7 and 8.11.8.  
If no protests are presented within the 10 minutes "protest period", the provisional results become official and final and may be announced.

- 8.11.11. Appeals to EFRA against the decisions of the International Jury may only be made if submitted to the Race Director in writing with a further appeal fee of 500 A (or equivalent) before the end of the event.  
Appeals are only allowed against decisions of rule interpretation or of decisions made by the international jury after protest and not the fact of rules (see rule 7.4.6).  
In cases where the international jury has adjudicated in cases of protest the decision of the jury is maintained until the appeal is considered.  
In cases where the international Jury has made an interpretation of the rules the decision is suspended pending consideration of the appeal.  
Appeals against the decision of referees shall also be made in writing to EFRA (see rule 7.1.22) and will not alter or interfere with the race in progress and will not suspend any decision of the referees.  
Appeals to EFRA must be considered at the next Executive committee meeting or before the next AGM and are always to be considered as final.
- 8.11.12. If protest is upheld, the protest-fee of 100 EUR must be remitted immediately.
- 8.11.13. The Race Director may, without a protest being made, correct results which he may deem necessary, after consultation with his organising staff and referees.
- 8.11.14. Protests against the decisions of the Referee, concerning the racing, are not possible. The Referees decisions are indisputable (see 7.1.21 and 22).

## **8.12. LAP COUNTING PROCEDURE**

- 8.12.1. At EFRA sanctioned events, the lap counting is to be done automatically by means of an automatic lap counting system and a transponder fitted inside the cars body shell.  
All competitors must supply their own Personal Transponder and are responsible for ensuring that the organizer is advised of the unique number.
- 8.12.2. The fitting of the correct transponder inside the cars body shell is the responsibility of the driver.
- 8.12.3. If a driver loses the transponder during the race, or if a transponder is not working, the lap counting supervisor must try to counts the laps manually.
- 8.12.4. If a driver forgets to fit the transponder during the race, the Race Director and the lapcounting supervisor will decide whether the laps are counted or not. There is no appeal against their decision.
- 8.12.5. Transponders must be moved to a better position in the car on the race-directors instruction, if lapcounting problems occur. Failure to comply may result in lost laps.
- 8.12.6. It is the responsibility of each competitor to ensure that no parts of his racing equipment generates any form of signal that in any way interferes with the automatic lap counting system. If it is proven, that interference is being caused, the Race Director must instruct the driver to modify the offending item and if this does not prove possible, the driver will be excluded from the racing.
- 8.12.7. The result of a heat, subfinal or final should consist of the number of laps and the time of the last finish line passing in minute, seconds and 100 of seconds.

## **8.13. PRIZES AND PRIZE CEREMONY**

- 8.13.1. Immediately after the finish of the race and before the drivers leave the drivers rostrum, the unofficial winner must be declared for the public and a symbolic first place award is presented. This award must be returned to the organisers immediately after the unofficial ceremony.
- 8.13.2. Immediately after the official result is published, the prize-ceremony must be held.

- 8.13.3. Winners are not entitled to claim prizes by right.
- 8.13.4. Prizes must be announced in the race-program. The actual prizes must correspond with the prizes as announced.  
They must be of a reasonable value according to the standard of the race.
- 8.13.5. Cash prizes or any other means of payment (paper tickets or coins of an obvious exchangeable value) are strictly forbidden.
- 8.13.6. Gifts not exceeding the price of an one-eight scale car kit may be given.
- 8.13.7. EFRA will award the first three drivers of each official European Championship with a golden (first), silver(second) and bronze (third) medal.
- 8.13.8. The best driver under 17 years will also receive an EFRA award.

**8.14 Events organised by associated members**

- 8.14.1 Events organised by associated members under endorsement of EFRA may not be subject to prize money or to starting premiums.
- 8.14.2 Applications for such events should be sent to both the President and the Secretary of EFRA at least 6 months before the start of the event
- 8.14.3 Such events may not have the title nor be referred to as Grand-prix, European or National Championships.
- 8.14.4 At least one official EFRA representative must be present. EFRA does not pay any expenses and all costs are to be supported by the organising associate member. This EFRA representative will be integrated in the officials listing and have the right to be present at all meetings and have access to all parts of the premises as an observer and auditor.
- 8.14.5 The relationship between the associated member and EFRA shall be that of independent identities for all purposes, and in no event shall persons employed by either party be held or construed to be representatives of the other.
- 8.14.6 Racing formats and classes may be different from those described in the EFRA handbook. The parts of the EFRA rules that will be applied should be clearly stated as well as the deviations on technical rulings. However the parts in the EFRA handbook referring to Legal liability, safety, security, conveniences, frequencies and drugs can under no circumstances be waived as being part of the rules fully in force.
- 8.14.7 The organizer accepts full responsibility for all necessary authorizations and to comply with local laws and regulations. The Associate organiser at its sole cost and expense shall procure and maintain during the term of this event with insurers of recognized responsibility for all insurances needed policies with adequate coverings.
- 8.14.8 Whenever prizes in merchandise are given they must be spread over at least 15 participants and have to be comparatively within reasonable proportion to each other
- 8.14.9 The Associated member will defend, indemnify and hold EFRA harmless from and against any and all liabilities, damages, losses, claims, fines, penalties, assessments, demands, actions, suits and judgments, including all fees, costs and expenses incidental thereto, that may be charged to, asserted against or incurred by EFRA by reason of any loss, damage or injury of any kind or nature whatsoever in any manner or to any extent resulting from or arising out of the articles or services covered by the endorsed event except to the extent resulting solely and directly from EFRA's gross negligence or wilful misconduct.
- 8.14.10 EFRA licensed drivers are allowed to participate at events organised by EFRA Associated Members, but their EFRA International licence may be withdrawn if they participate at International events not recognised by EFRA.  
Note: The valid EFRA Section Chairman is the only person that has the right to determine events not recognised. His decision is final and cannot be protested.

## 8.15. MARSHALLING

Positions for marshals must be spread equally around the track and may not obstruct the vision of the drivers.

The positions must be numbered. When a position is located at a dangerous part of the track (i.e. the straight or a fast corner), this position must be equipped with protection for the Marshal (a wall, tires, a gate etc.).

The marshal's position must be furnished with gloves and/or other protection and a safety jacket which is compulsory to wear. For IC events, it is mandatory (safety reasons) that the marshal position is also equipped with a plastic or wood baton as an aid to kill a running engine.

For IC track events, the organizer has to provide the marshals for the finals. For all the other classes: If a host club is not able to provide marshals the following rules take effect:

8.15.1 Only drivers taking part in the competition may and must marshal the heat following their own, (subject to 8.15.4). The first heat will be marshalled by the drivers of the last heat.

Other than running marshals, all other marshals must remain at their posts until replaced. No other persons, except officials are allowed on the track while the race is in progress.

8.15.2 Failure to marshal or provide a competent substitute will result in the loss of the driver's best qualifying time if qualifying by Fastest Time is in operation. The loss of the best points score will be the result if qualifying is by the Round by Round system.

If competitors are required to marshal Finals, then failure to marshal in a Final will result in being placed last in the appropriate Final. Failure to marshal is clarified as: not being at the correct marshalling point 30 seconds prior to the start of a controlled practice, qualifying heat or final.

A substitute marshal is only allowed if the driver is physically disabled

- Notification of the substitute must be made to the Race Director prior to the start of the race which the driver is racing in.
- If a substitute is being used for the whole event, notification must be made prior to the beginning of the first Time Practice Round.
- The driver who is substituted must stay at the Race Director's disposal in a designated area (not in the pit) up to the end of each race where he is substituted.

Failure to comply with these provisions will result in the same losses as if a driver does not comply with his marshalling duty. Designated marshals who repeatedly fail to marshal will be excluded from further participation at the event on the basis of Unsporting Behaviour and their Federation will be informed to take corrective action.

8.15.3 The organisation of drivers marshalling for the final will be the responsibility of the organiser. The main system for such will be the following one: For finals, large teams provide the most marshals, maximum 2, smaller teams 1 and very small teams none (but may volunteer to help). Marshals will be allocated designated points marked by their country names. Team Managers to insure that these points are covered at all times by drivers. Only drivers taking part in the competition may and must marshal finals unless a substitute is allowed by the Race director due to physical disability. Alternative secondary systems like: Each driver taking part in a final must provide a marshal for his car number position or Drivers not bumping-up to the next sub final will marshal the positions of their car number

- in the immediate next sub final (descent from rostrum and go to marshal), or the driver marshal the precedent final on his side of the Christmas tree with the non-filled spots to be covered by the club can be used following a decision made by the Race Director together with the referees and the Section Chairman if present.
- 8.15.4 The organiser must provide a marshal for any unfilled position i.e. previous heat had less drivers or marshals missing.
  - 8.15.5 It is the Team Manager's responsibility to ensure that drivers marshal finals. Country allocations will be decided pro-data. Team Managers who do not fulfill their duties regarding the organisation of marshals will be reported to their Federation with the intention that they are not nominated at future events.
  - 8.15.6 For large scale racing Marshals are not allowed. Mechanics will act as Marshals out from the pit lane. This rule cannot overrule national insurance regulations.
  - 8.15.7 All marshals must wear safe and sensible footwear that will not become detached when performing marshalling duties. (Sandals are not acceptable).

## 9. STARTING PROCEDURES

- 9.1. Purpose of the EFRA qualifying system is to create more equal chances for the drivers.
- 9.1.1 The Race Director will appoint a suitably qualified person(s) to perform the duties required by Race Control in respect of all procedures required for the operation of the timing software and a Start Official to be responsible for the start and finishing procedures of all cars in Qualifying and Finals.
- 9.2. Starting procedure for qualifying  
It can be either:
- Staggered Start: All cars are released one by one by the starter at an interval of approx. 1 second (track lay-out depending). Missing the starting procedure means that the car has to start his race from the pits after the last car has started from the designated starting area.
  - Flying Start: Cars will be driven at the track from the moment the track is declared "Open" for practice or warm-up, there will be no call for starting procedure. The Start Official will give a 2 minutes warning to the start, this will be announced through the sound system, you will also get the time "1 minute to the start", "30 seconds to the start" and "10 seconds to the start". An audible signal and the mention "clock is running" will indicate that the heat has started. During this procedure timing cant be adjusted.  
Common conditions: Each car will have its own timing. The total time will be the one designed in each class appendix.
