To; All EFRA contacts

# MUFFLER Update

Wednesday, 02 March 2005

Dear EFRA contact,

In the EFRA handbook 2005, which you will receive in a few weeks, the 1:8 scale mufflers are listed including drawings till number EFRA 2024.  
1:10<sup>th</sup> IC track mufflers are listed till EFRA 2614.

The last couple of weeks more mufflers have been homologated and according to the new accepted rules those mufflers now will be published as the final list which can be used for all EFRA sanctioned events.

Drawings of the last mufflers will also be available on the website as pdf files within a few weeks.

All the currently old 2-chamber mufflers that are valid for 2005 in Off-Road will be removed from the list and the handbook 2006. **A proposal will be made by the EFRA executive end of this year for the AGM. So from 2006, if the AGM accept the proposal, there will only be 3-chamber mufflers on the official homologation list.**

**Measuring glass for 125cc and 75cc.**

EFRA has bought a couple of measuring glasses last year with a small top section for easy measuring the volume of 1:8th scale and 1:10<sup>th</sup> scale tanks. Due to the small top it is easy to see if the volume is more than the maximum specified for the tank. We have received several requests from countries where to buy these measuring glass. If more countries are interested we can buy one extra shipment. The price will be around 75 euro's, excluding shipment, a piece since they need to be calibrated and it is a special type. Please inform me before March 10<sup>th</sup> if you would like to have one or more of those measuring glasses.

Have a nice racing season.

Best Regards,

Sander de Graaf  
1:8 scale section chairman.
