	31487	LOLA VDS T530	Mid Mugen Seiki	Can-Am
	31488	LOLA T530	Fastom	Can-Am
	31489	LOLA T530	Titan	Can-Am

Each homologated body will have a unique EFRA number, even if the same type of bodyshell is already approved for a different manufacturer. The EFRA number must be set in an area immediately adjacent to the cockpit, preferably in front of the windscreen. Body homologation number must be visible at time of technical inspection. Therefore manufacturers must place the number in an area of the body which will not be cut out. (Bonnet in front of the driver, front spoiler, windscreen) To prevent other manufactures from copying bodies, it is advised also to emboss the manufactures logo near to the EFRA number. The manufacturer has to retain the example body during the homologation period of five years. If the Homologation Officer suspects that a body has been modified post- homologation he may anonymously purchase an example of the body for checking. If he finds that the body has been modified it will be immediately removed from the approved lists.
