Muffler update 200mm IC track.
Bodies for both the EC-A, Luxembourg
(1:8scale) and EC Amstetten (1:10th
200mm touringcars)

Monday, 05 July 2004

Dear Sportsfriend

Because it has took some time to get in touch with all the bodymanufacturers and to homologate bodies for both the European Championships in 1:10th IC track and 1:8 scale a lot of bodies are still on the market without the good and necessary EFRA number moulded in.
A lot of shops still have stocks of old bodies without any numbering, except a manufacturers reference in the back.

To control the used bodies on both the EC's in Luxembourg and Amstetten we have decided to use the following method only this year.
Based on the bodylists that are available we can only control the bodies if we have the original, without any cut-outs also available on the track.

For 1:10th the homologation officer (Gerhard Binder) will take all the original bodies with him to Amstetten, so we can compare the original ones with the painted and used ones from the drivers.

For 1:8 scale we will try to do the same, although we do not have all the originals yet from the old bodylist that are still valid. However if a driver takes the original with him to Luxembourg, without any cut-outs we have the possibility to check them.

It must be clear to anybody that only bodies from the list can be used.

At the moment the following bodies can be used;

1:10th touringcars.

Frewer	Chrysler- Dodge- Stratus EV2	2001
Frewer	Opel Astra Coupe	2002
Frewer	Chrysler- Dodge- Stratus EV1	2003
HPI (Europe) Ltd.	Dodge Stratus- Natcc	2004
TRT- Technik	Volvo S60	2005
TRT- Technik	Mercedes CLK DTM	2006
TRT- Technik	Opel Vectra STW	2007
Protoform	Alfa Romeo 156 #1461-00	2008
Protoform	Dodge Stratus #1450-00	2009
Protoform	MG ZS #1468-00	2010

EUROPEAN FEDERATION OF RADIO OPERATED MODEL AUTOMOBILES

MUFFLERS for 200mm IC track.

Since muffler homologation was also introduced this year for the first time in 1:10 IC track also here we are facing problems with mufflers not bearing the homologation number, just because of stocks in the shop or the fact that the manufacturer just recently received the homologation number. As an exception we will use the drawings to verify mufflers this year, however drivers must be aware that if we find any differences between muffler and drawing we will not allow the muffler to be used. At the moment the list for 1:10th is containing the following mufflers.

EFRA2501	Mielke	
EFRA2502	R&B	1850/1851
EFRA2503	NovaRossi	51220, mega 2680, 2691(inline version)
EFRA2504	Picco	7078
EFRA2505	Cristophe Rolland	CR110
EFRA2601	NovaRossi	51608 for Nova, 51628 for Rex and 51618 for Top
EFRA2602	Max power	
EFRA2603	Associated	2354,1763,1765
EFRA2604	R&B	1751-401 and 401K
EFRA2606	RCCpower	STS-12271-E inline version
EFRA2607	Picco	
EFRA2608	Rossi, Axe	
EFRA2609	Mugen, USA	
EFRA2611	Sirio	type 2003
EFRA2612	Sirio	type 2004

Also here we are still working on more mufflers to be approved. As soon as they are homologated we will update this list.

Have some great racing the next couple of weeks.

Regards,
Sander de Graaf
