

2016 *ELECTRIC 1/12th & 1/10th ISTC* **WORLD CHAMPIONSHIPS**

2016 IFMAR WORLD 1/12th & 1/10th ISTC CHAMPIONSHIPS BEIJING CHINA Stage 2 Report

Dear racers, welcome to the capital of China, Beijing, for the 2016 IFMAR Electric 1/12th & 1/10th ISTC World Championships! We are honored to offer you an impressive experience on the principle of equality and fairness and provide each of you with comfortable and pleasant contesting environment.

The 2016 IFMAR Electric 1/12th & 1/10th ISTC World Championships will be held in Beijing Fengtai Sports Center, which features the most well-equipped and fully-functional R/C car tracks with the largest spanning space in China and various functional areas which are facilitated with modern conveniences.

The World Championships would contain racing contests both indoors and outdoors. The outdoor 1/10th track, which is permanent, covers an area of 2,800 square meters, while the indoor 1/12th ISTC track is temporary. All tracks were built with special-purpose materials for international model auto racing to create high-quality conditions for racers.

During the World Championships, please do not hesitate to seek assistance or advice from our on-site staff if you have any question.

We appreciate and look forward to your participation!

2016 IFMAR World Championships Organizing Committee

Beijing Fengtai Sports Center is ready for your visit during the World Championships!

II. Traffic Information

1. Overview

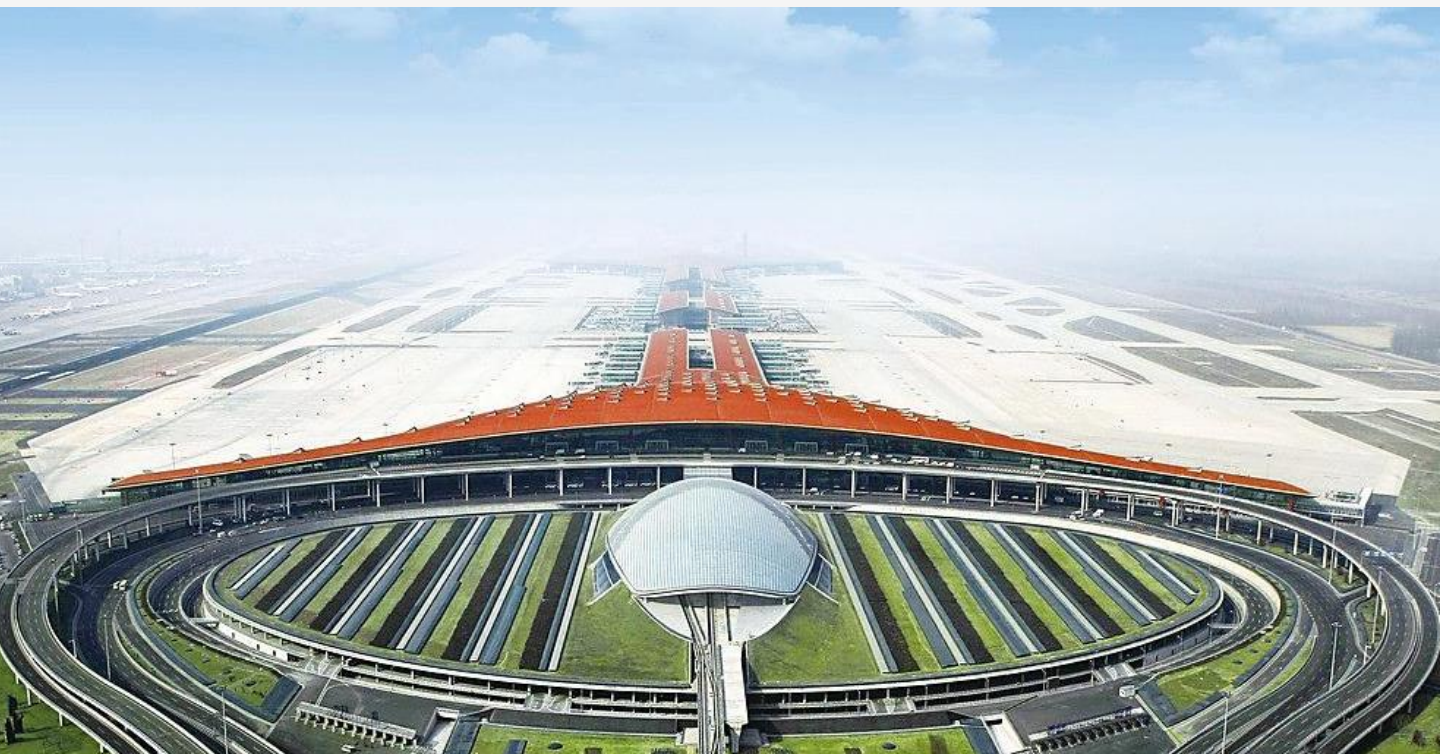

Beijing Fengtai District, with a resident population of 2.17 million, is located in the south part of Beijing, about 44 km away from Beijing Capital Airport. As a modern sports facility that meets international competition requirements, Beijing Fengtai Sports Center is the largest and the most fully-equipped sports center in the District. Since its inception, the facility has hosted various international and domestic competitions and games. The site is sitting in the transportation hub area, boasting convenient transportation.

2. Access

Beijing Capital International Airport: <http://www.bcia.com.cn/>

Beijing Capital International Airport has 3 terminals, of which Terminal 2 and Terminal 3 support international flights.

Fengtai Sports Center is 45 km away from Beijing Capital International Airport and can be reached by:
subway, airport shuttle bus and taxi

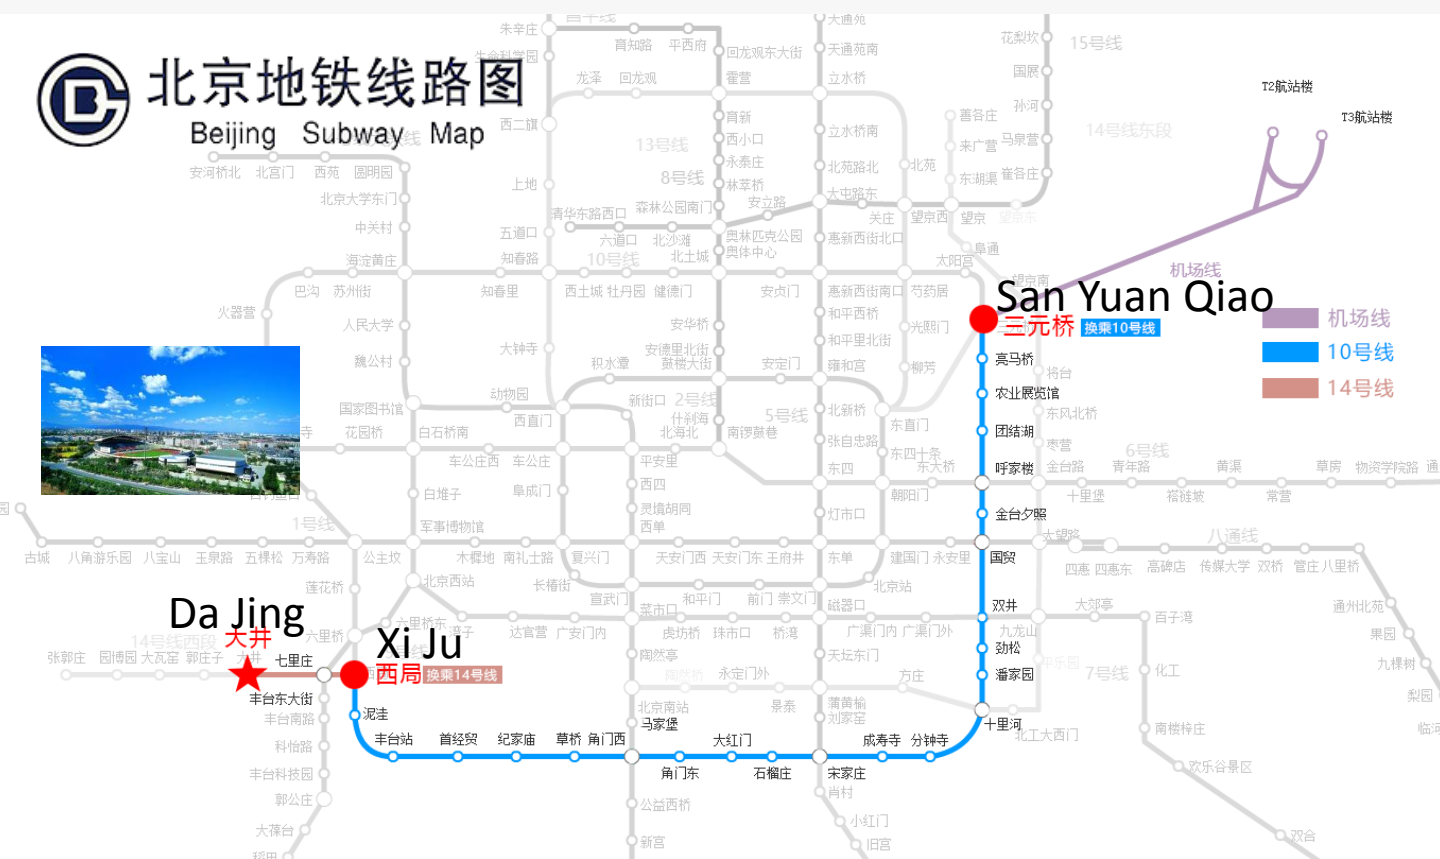

Subway

- 1) There are 25 stops before you reach Fengtai Sports Center from Capital International Airport.
- 2) The trip takes around 100 minutes and costs 31 yuan (25 yuan for airport express and 6 yuan for subway).
- 3) Please follow the steps: (a) take airport express from the airport to San Yuan Qiao station, (b) transfer to subway Line 10 and take the subway to Xi Ju station, and (c) transfer to subway Line 14 and take subway to Da Jing station.

Upon arrival at Da Jing station, exist from Exit A and walk 100 meters to the east and you will arrive at Fengtai Sports Center.

Beijing Subway Map: <http://ditu.so.com/subway/index.html>

Airport Shuttle Bus

- 1) There are 14 stops before you reach Fengtai Sports Center Station from Capital International Airport.
- 2) The trip takes around 170 minutes and costs 26 yuan (24 yuan for airport shuttle bus and 2 yuan for public bus).
- 3) Please follow the steps: (a) take airport shuttle bus (Line Direction: West Railway Station) and get off at Guang An Men Wai Station, (b) walk 10 meters until you reach Da Guan Ying Bus Station, (c) take bus "340" and get off at Fengtai Lu Kou station, and (d) walk 320 meters to the west and you will arrive at Fengtai Sports

Taxi

- 1) Beijing Capital International Airport is 45km away from Beijing Fengtai Sports Center.
- 2) It takes around 80 minutes by taxi and costs about 150 yuan.

Important Notices:

During the 2016 World Championships, all 4 Gates (East, South, West and North) of Fengtai Sports Center will be open, among which the North Gate is the only gate that allows vehicle entrance.

Only people with Chinese driving licenses are allowed to make car rentals and drive cars. China uses right-hand traffic and motor vehicles have their driving seats on the left. If you encounter any traffic accident during your driving, please call "122" , the traffic accident response number, for actions from police officers.

III. Site Summary

Spanning an area of 21.48 hectare and having a gross floor area of 50,000 square meters, Fengtai Sports Center is a well-equipped modern facility consisting of a stadium, a gymnasium, a natatorium, the Olympic Softball Palaestra and the Feng Ti Model Racing Speedway. To date, a number of international and domestic games have been held in Fengtai Sports Center, such as the Beijing Olympic softball game, soccer, sepak takraw, baseball and softball matches of the 11th Asian Games, volleyball match at the 2011 Summer Universiade, China-USA Women's World Cup, soccer, judo and wrestling matches of the 7th National Games, China Baseball League, China League One, 2013 FEMCA 1/8th Buggy & 1/10th ISTC Championships, and 2015 CMAC China Championships.

VI. Important Notices

1. Player Information

All players and mechanics that has been successfully enrolled are requested to send your team information to the Organization Committee's e-mail address at bj2016worlds@126.com by

July 15th, 2016. We will made player ID card / certificate for you.

Please include the following information in the e-mail:

Player: Name, photo and nationality

Mechanics: Name, photo and nationality

Team Manager: Name, photo and nationality

2. No-fly Rules

Aircraft of any kind has been prohibited to fly over Beijing.

3. Timekeeping

- Lap counting and timing will comply with IFMAR General Rules.

We plan to use Livetime (software) and Mylaps (hardware) as the scoring system for the 2016 World Championships.

Mylaps RC Timing System will provide reliable timekeeping. Attention: RC4H uses double connection that both new and old timing systems are compatible.

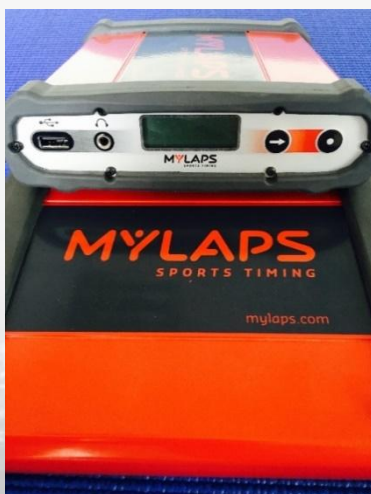

- Mylaps RC Timing Control Chip

The timing chip installed in each R/C car/boat will send a special signal when passing the signal loop line, which is able not only to identify the ID of the racer but also to record the exact time when the chip passes the loop line.

- Timekeeping

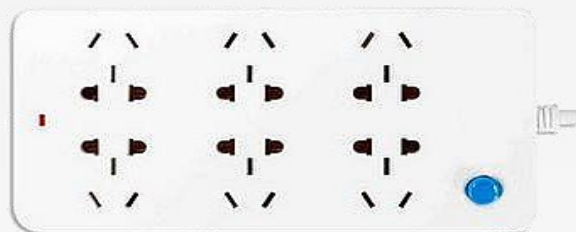

Functions available in the Timing System:

- a) Name list of all players
- b) Data collection: player ID authentication , lap counting and timing
- c) Making, printing and publishing official scores
- d) Uploading results to mylaps.com

4. Electricity

- Standard electricity supplies in China are 220V AC (50Hz). Power outlets are divided into grounded and ungrounded outlets. Sample power outlets are shown below.
- Electricity supplies and power outlets are available in the pit tent. Players must provide their own power cords, transformers and plug adapters if applicable.

5. Visa and Entry

- Players should apply for China visa at China embassies, consulates or offices. As the 2016 World Championships will last for 9 days, it is suggested that players apply for tourist visa or such other visa as required by the regulations of their countries.
- Visa procedure usually takes around one month. Players are suggested to consult with the China embassies, consulates or offices in the country of their permanent residence before entering any formalities.
- Upon entry, any player shall hold his/her passport and international travel certificate (such as travel certificate) with Chinese visa, residence permit or other relevant materials, as well as the arrival card (note: any foreigner with a PRC Foreigner Permanent Residence Card is not required to fill in any arrival card). Further, after entry, any one is subject to inspection by frontier inspection office and has entry stamp affixed onto his/her entry-exit certificate by China customs.
- Procedures after a player arrives at the Beijing Capital International Airport are summarized as follow:
 1. Arrival ——> 2. Inspection and Quarantine Check ——> 3. Frontier Inspection ——> 4. Baggage Claim ——> 5. Customs Inspection ——> 6. Leaving Capital International Airport

Warm Notice: For more information, please visit the following website for help:

Beijing General Station of Exit and Entry Frontier Inspection: <http://www.bjbj.gov.cn/>

6. Lithium Battery

- **The Organizing Committee will not arrange for lithium battery transportation or any other issue in connection therewith. Please pay attention to the relevant rules and regulations on carrying lithium battery product(s) by travelers issued by Civil Aviation Administration of China!**

Provisions on Carrying Lithium Battery onto Flights

Portable electronic devices containing lithium batteries for personal use (such as camera, mobile phone and portable video camera) may be carried as hand luggage on to the flight. However, Rated energy of the lithium battery may not exceed 100Wh. Where the rated energy is over 100Wh but no more than 160Wh, the lithium battery may be carried in checked luggage or hand luggage with approval from the airline. Lithium battery with over 160Wh rated energy is prohibited to be taken onto the flight. Each back-up battery of any portable electronic device shall be protected from short circuit (i.e. be placed into original retail package or be insulated in other ways, such as pasting any tapes on electrodes or putting each battery in a separate plastic bag or protection box), and may only be carried in the hand luggage. Only 2 back-up 100 -160Wh batteries approved by the airline can be carried on the flight. In the case of any traveler carrying any wheelchair driven by lithium battery or other similar travel tools or carrying for medical purpose any portable electrical medical device that containing any lithium battery, the traveler may carry the above pursuant to applicable rules and requirements and only after obtaining approval from the airline. Traveler may consult with relevant airlines in respect thereof for more information. In accordance with the regulations of Civil Aviation Administration of China, such lithium battery as being carried on the flight must comply with applicable safety requirements. It is suggested that any traveler shall purchase any lithium battery through formal channels.

Warning Notice: For more information, please visit the following website for

help: Civil Aviation Administration of China: <http://www.caac.gov.cn/>

7. Currency Exchange

The currency in circulation in China is "Chinese yuan". Currencies that are convertible in banks within China are: British pound, Hong Kong dollar, US dollar, Swiss franc, Singapore dollar, Swedish krona, Norwegian krone, Japanese yen, Danish krone, Canadian dollar, Australian dollar, the euro, Philippine peso, Thai baht, Korean won, Macau pataca and new Taiwan dollar - totally 17 currencies.

If possible, please exchange before entry into China.

There are two ways of currency exchange within China:

A : After entry, exchange in the airport with passport.

B : Exchange with passport in Bank of China Fengtai Road Branch which is near the venue. (address: No. 46 West Fourth Ring South Road, Fengtai District, Beijing)
