

ISSUE: EXTRA 2016

160507

Dear RC -friends!

This is an EXTRA NEWSLETTER due to that we now have got the final information regarding the control tyres to be used at the EC A 1:8 IC TR in Eskilstuna Sweden.

**Information about the Control tyres, Contact Tyres, for the EC A 1:8 IC TR and the supplier;**

Contact-RC tyres are manufactured by the expert engineers at [Schumacher Racing](#) in the UK. Schumacher has invested in a highly automated manufacturing process which will ensure consistent high quality products. Contact-RC will use only the best materials and all new wheels, developed with the knowledge and experience of some of the worlds best drivers.

The fully automated hardness measurement, glueing, and truing processes mean that every single tyre produced will meet the exacting high standards required by top level racers.

Contact-RC tyres is lead by experienced foam tyre expert **Piero Torregiani**. He is the former top man of ATS, who helped his team drivers achieve 2008 and 2009 World and European championships in 1/8th and 1/10th scale Nitro On Road.

For full details on all the Contact products please go to the [Schumacher](#) website. Final price that

**Offered price is 10.50€/set (front end rear) for whole event, official and practice tires.**
