Homologation Officer Muffler 1/8th and 1/10th IC

Sander de Graaf

888-84 Baan Aiyara, Moo 7,
Soi 3,
Tambon Johor Amphoe
30310 Nakhon Ratchasima
Thailand

Thailand, October 1st 2018.

Procedure for EFRA Registration of Mufflers for 2019.

Any manufacturer, or distributor, who wishes to have a new muffler approved to be used at EFRA events must:

- First send a drawing in pdf or jpg to the muffler homologation officer. The drawing need to show tolerances in the various measurements. Remember some of the maximum measurements within EFRA have no tolerance, so 8.00mm for tailpipe diameter is max 8.00mm.
- After examination of the drawing the manufacturer needs to send 1 complete working sample + 1 internal cone and disc to the homologation officer.

The time schedule for EFRA Muffler Registration is as follows and these are **deadlines**, so **the sooner the better**: The first drawing must be received by EFRA 1st of January the latest.

Samples must be received by January 31st the latest. Please also remember to mark the parcel as **“SAMPLE”**, with **no commercial value**. All costs involved with this procedure must be paid by the manufacturer.

Payment for a muffler Registration must be received February 15th the latest.

The muffler will be checked and registrated between the 1st of December and 28th of February. This process does not include noise-tests, due to the number of variables that are responsible for the total amount of noise. Even changing the material(thickness) or adding a coating can make a change in the noise level, positive or negative. At the end the driver is responsible for his noise production and in case of a significant difference he may be requested by the race-director to change his muffler/manifold system or gearing.

If registrated the EFRA approval number will be sent to the manufacturer 28th of February the latest. Manufactures are requested to pay attention to the engravement and make sure this is good visible, also after cleaning the mufflers a number of times.

EFRA will publish a list of registrated mufflers 1st of March. These mufflers will also be forwarded to IFMAR, to be included in the IFMAR list.

Please also read EFRA rule app 8, the rule can be downloaded from our website: www.efra.ws

Each registrated muffler must have an unique EFRA number. The EFRA number must be visible at time of technical inspection. If the Homologation Officer suspects that a muffler has been modified after the registration he may anonymously purchase an example of the muffler for checking. If he finds that the muffler has been modified it will be immediately removed from the approved lists.

The **Registration will remain valid for a period of 2 years** from the date shown. However if the model is amended / changed then it will need to be re- submitted for approval. Every 2 years the muffler must be offered for a new registration period. A sample for verification could be asked by EFRA and needs to be submitted if required or asked for.

Registration fee is 120 Euros for a muffler and for a period of 2 years. EFRA associated members pay 60 Euros per muffler (50% discount).

On behalf of EFRA.

Sander de Graaf / EFRA Muffler Homologation Officer.

IMPORTANT:

Samples must be send to my address in Thailand, see top of this letter. 1 x muffler + 1 x cone/disc.

Here under you will find the list with mufflers and the date the registration expires. Every muffler valid till dec-18 (orange colored) will need a renewal of their registration. In case it is not renewed it will not be on the list for next year. Please also check your OEM names for changing or adding new names. OEM names can be added or removed every period of 2 years.
