Dear sport friends,

This is my first opportunity to contact with you as EFRA President. I was elected last weekend at EFRA AGM in Brussels where I introduced my candidature and finally, I got the confidence of the Federations. It's an honour and a great responsibility to fill the shoes of one of the most important persons in the RC World, Dallas Mathiesen.

Maybe not everybody knows me, because my role in last 3 years in EFRA has been related to the IC On Road section as 1/8th IC On Road Section Chairman, but thanks to my experience as International Referee I also got to know other sections, other sensibilities and other points of view inside the RC community.

I feel that during the last few years, EFRA is working in a good way, trying to improve the International Events, Registration procedure, Internal structures and economic statements, but when I accepted the challenge to become your President, it is because I truly believe that we have a margin to improve, and we need a plan to do it.

I don't like to fill an important position on the board only for the "title". I want to bring EFRA to a new **ERA**, where a new generation of drivers are waiting for us. Social media, racing procedures, communication, technical rules, image and of course working with and for **KIDS** are points that we have to take care for upcoming years. 2019 will be a year to work in a **Future Plan** to say "**Welcome to the Future**". For that we will need your cooperation. Drivers, manufactures, federations organizers and social media partners will be necessary to reach our goals.

I'm sure that I'll meet you at some of the next events, but meanwhile, feel free to send me your feedback. Now, it's time to work.

Best Regards,

Javier García
