

**EFRA**  
FOR  
**DUMMIES**<sup>®</sup>

**DRIVER'S  
REGISTRATION.**

*A Reference for the Rest of Us!*

Important bit – Read it!

If you're Greek, live in Estonia but have always raced in Finland you still have to get your approval to race from Greece unless there is permission from the Greek federation to allow you to enter through another country. Just because you race somewhere it doesn't mean you can enter through that particular country. That's the rules.

OK that's the troublesome bit out of the way....

You can now register with EFRA to do several things....

You can keep your details up to date and correct.

You can register an interest in a particular race meeting.

You can receive emails confirming entry status.

Once you have been set up your "home" federation will also receive emails relating to your interest in racing at a particular event. They can approve or disapprove your entry, you will also have to be a member of this Federation, so you can guess what will happen if you're not a paid-up member!

By the way, EFRA don't charge anything for you registering and as long as you're approved by your Federation you will have an EFRA approval allowing you to race in EFRA events. Please note that your Federation might have some form of administrative charge.

So let's go to [www.efra.ws](http://www.efra.ws) to begin.

The screenshot shows the EFRA website's login interface. At the top, there is a navigation bar with a Facebook icon and the text 'EUROPEAN FEDERATION OF RADIO OPERATED MODEL AUTOMOBILES'. Below this are several menu items: HOME, ORGANISATION, EFRA NEWS, SECTION NEWS, RULES & REGULATIONS, RACE CALENDAR, and GALLERY. The main content area is titled 'LOGIN' and contains a form with two input fields: 'Username' and 'Password'. To the right of the 'Username' field is a button labeled 'Enter EFRA'. Below the 'Password' field are two links: 'new to EFRA?' and 'Forgot password?'. Two red arrows originate from the text on the right side of the page and point to these two links.

If you have never raced at an EFRA event then it's unlikely that your details will be stored so click the "new to EFRA" link.

If you think that you should be known then try the "forgot password" link first.

## Create a new Registration with EFRA.

**Account Creation**

By creating an account, you agree to EFRA's Conditions of Use of [Privacy Statement](#).

Name

Prenome

E-Mail Adresse

Federation  
Show all federation ...

Accounts for Associate Member, Event Organisor, Manufacturer please select Sweden, EFRA ...

Login name (min. 5 char)

Password (min. 8 char - min. 1 digit)

insert the security code 

Fill in all the boxes.

Family or last name.

Your Prenome as found on "official" documents. No Nick names please.

Most important.

Select your home Federation from the dropdown list.

Whatever you wish for 😊

Follow the rules.

Are you real?

Once you have completed this click the "send information" and wait for the confirmation email which should look like this (without the blurs though).

### Your EFRA Account request

Login:   
Password information is not displayed for security reasons. If you forgot it during the initial phase then please contact the EFRA secretary at [secretary@efra.ws](mailto:secretary@efra.ws) to reset your password. After successful registration you can change your password yourself.

Your Federation license number.

Birth date.

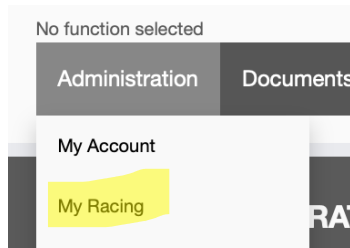

Email.

Address details.

Username.

Password.

Click the “change data” button to save.

Now for some interesting stuff. You will have a tab under "Administration" called "My Racing". Clicking here will list all the events that you can register an interest in.

Please note that this is not an entry, you are only registering that you would like to enter. It is only your home Federation that can approve the "entry" to the event.

In the picture we can see that this driver has successfully... entered a meeting, completed the profile data, granted consent and been approved.

But, there's also a meeting where everything is not OK! The red crosses are the clue here.

A screenshot of a "Your registration list" page. The page title is "Webuser permission for selected function" with sub-tabs "My EFRA" and "Racing". Below the title is a "My Account" dropdown menu with "My Racing" selected. The main content is a list of registrations. The first two rows show "TEST 1:12" events with "cancel:" checkboxes and status indicators for "Profile Data", "Consent", and "Event approval". The first row has red crosses for Profile Data and Consent, and a green check for Event approval. The second row has green checks for all three. Below this is a section "Allocation through EFRA (EC, WC)" with four rows, each starting with "register:" and an unchecked checkbox. On the right side, there are two buttons: "Cancel Registration" and "Process Registration". Red arrows point from the text above to the "cancel:" checkboxes and the "Process Registration" button. Another red arrow points from the text above to the red crosses in the first row of the registration list.

Two other useful items here. The first is a cancel box and the other allows you to see the details you have provided. Clicking on the "expand" button shows the following....

Your registration list

2019-12-20 - 2019-12-22 -> TEST 1:12 SPEC ALLOCATION RACE TRACK

cancel:  Profile Data:  Consent:  Event approval:

2019-12-20 - 2019-12-22 -> TEST 1:12 MOD ALLOCATION RACE TRACK

cancel:  Profile Data:  Consent:  Event approval:

Maximal allocations of event: 10  
Total approved allocations of event: 10

Allocation through EFRA (EC, WC)

Process Registration

This is your profile for this event, and we have some mandatory information missing. Anything with an Asterix \* is needed to complete the registration. In the above screenshot the transponder information and the data protection agreement consent needs ticking. In the case of a minor/junior this will need to be completed at the event during registration but it doesn't stop you checking this. The missing data will not stop your entry as long as it's approved by your Federation.

Now some of the entry process will be finished by your Federation. Expect emails alerting you to any change of status. Once all your details are complete you will be able to open or print your "Race Ticket".

**Consent for the use of personal images (photos) and event results**

Herewith Desktop Della accepts the consent.

**Consent**   
**Accepted**

By accepting and agreeing to enter any EFRA events, the competitor or his legal representative agrees to photos and/or digital images being taken of the named competitor, by any person that has the authority of the organisers of the event. The consent applies to any photo or digital image used by the event organiser for publication in any print media, television, websites, social media as used by EFRA or the Organiser or by appointed media representatives of EFRA or the Organiser. Any photos or digital images published by the organiser or his appointed representative must not be adjusted in any way that could be considered as "distasteful" to the person or persons depicted.

Additionally:- By accepting and agreeing to enter any EFRA events, the competitor or his legal representative agrees that any results from an event which includes the name of the competitor, can be used in any publication as used by the organiser including any organisation that has the authority from the organiser. The consent for any photos, digital images or results to be published does not entitle for any remuneration to be paid.

Any issues that you come across, other than your Federation not approving you, contact by email [entry@efra.ws](mailto:entry@efra.ws) with your issues. An FAQ is forthcoming, check back to this document from time to time, the website is still fairly "dynamic" and under constant development to accommodate everyone's needs (not really possible, very difficult to please everyone 😊).
