# Rules & Info

---

## Rules

**The race runs according to IFMAR General WC and IFMAR Electric off-road rules.**

---

**Batteries and motors are homologated by IFMAR.**

**Only 2S LiPo/LiFe batteries with maximum nominal voltage of 7,6V are allowed.**

**Current lists can be found on IFMAR website at [www.ifmar.org](http://www.ifmar.org)**

---

Subscribed Tires (tires for timed practice, qualification and finals have to be purchased at the venue)

**Front 4wd: Worlds Hole Shot 2.0 2.2" 4WD Front M3, foam Inserts (19 euro)**

Tires do not have to be ordered in advance and can be purchased as needed at the event

---

# Rules & Info

---

## TECHNICAL INSPECTION

**All cars must be presented for technical inspection at the start of the prior heat. No car will be allowed on the track surface without undergoing technical inspection first, including Lithium Voltage checks at random for some or all cars.**

**All cars must be presented for technical inspection at the end of each final.**

**All motors and batteries to be inspected as necessary during qualifying with mandatory inspection after the finals**

---

## GENERAL SPECIFICATIONS

**Only one (1) car per driver per class is allowed. All cars must be presented to Technical Inspection for an Initial Inspection before the start of Controlled Practice. This Initial Inspection is to determine that the car meets the IFMAR Technical Rules for this event.**

**When the car passes this Initial Inspection, the chassis of the car will be marked by the Technical Inspector. Marks which are made by engraving, and/or removal of chassis material, are to be avoided. A driver may refuse to have their chassis marked by methods which include removing chassis material.**

**Once the chassis is marked, the chassis may not be changed without the approval of the Race Director. The chassis may only be changed in the case of damage which cannot reasonably be repaired. Any replacement must be of the same: design, specifications and material as the original chassis registered.**

---

# Rules & Info

---

Dimensional requirements (both classes);

**Maximum overall length of the car 18.00 inches (457.2mm)**

**Maximum overall width of the car 9.84 inches (250.0mm), at any point of suspension travel.**

**Maximum height of the car 8.00 inches (203.2mm)**

---

Wings:

**A maximum of two (2) wings may be used. One for the front and one for the rear.**

**Maximum size of wings:**

**Front 5 inches wide by 2.5 inch cord (127.00 mm x 63.5mm)**

**Rear 7 inches wide by 3.0 inch cord (177.80 mm x 76.2mm)**

**Max. wing side plate sizes: Height 50mm/1.97in. Length 80mm/3.15 in.**

**Vertical 'fins' included or attached within the wing area, must be no higher or lower than any side-plates. If no side plates are used, any vertical 'fins' within the wing area must not exceed 50mm maximum overall (top to bottom).**

**Front or Rear bi-level wings are not permitted.**

---

# Rules & Info

---

## FACTS ABOUT TRENCIN

---

### Geography

The City of Trencin, Slovakia is in the center of the Povazie region. Thanks to its advantageous location, Trencin is an important commercial, economic, cultural, and sports center. It is also known as the "City of Fashion." Numerous institutions and companies have their headquarters and branches located in Trencin. Expositions and fairs also have a long-time tradition in Trencin. Current population of Trencin is 60,000.

Trencin is located in the western part of Slovakia on the Trencianska basin. The river Vah runs north/south through the middle of the City, the east the City is bordered by the massif of the Povazsky Inovec and Strazovske vrchy, and to the west by the ledges of the Biele Karpaty.

The City has a mild climate with temperatures on September around 15-20 degree Celsius.

Trencin belongs to the oldest Slovak cities and has very rich history with many monuments.

For more information about the City, please visit the official website of the City of Trencin at: [www.trencin.sk/en/](http://www.trencin.sk/en/)

## FURTHER INFORMATION

---

### Money & Credit Cards

The national currency is Euro.

---

Foreign currency may be exchanged in banks Monday to Friday 8.00 - 17.00.

---

Banks have several cash dispensers throughout the City. Banks usually operate on Visa/ MasterCard/ Maestro, as well as most shops and restaurants.

---

### Water

City tap water is safe to drink.

---

### Electricity

Electric current in Slovakia is 230 volts and 50Hz.  
Plugs and sockets are the same as in continental countries of the European Union.

---
