Further information on the venue and events available here: www.raco2000.nl

The Raco2000 RC track is one of the oldest on-road RC tracks in the Netherlands dating back to the early 70's.

The Raco2000 was the first track to be recognized by the NOMAC. The track has a perfect geographical location within the center of the Netherlands.

In the past we organized several big national and international events at our track.

So we have all the knowhow in-house to execute this EC in a professional manner

The layout of the track is highly recognized by drivers all over Europe as one of the most beautiful and demanding tracks around.

In 2020/21 the astroturf was renewed to high standards.

The centre off Utrecht is (± 10 min) and the nearest cities are Amsterdam (± 30 min) and Hilversum (± 20 min).
