GTJ03 – XM3 (SPOKED RIGID WHITE WHEEL)

EC : XM3 & XM4 (SPOKED RIGID WHITE WHEEL)

After the “Senna Memorial Race” we will publish a final STAGE 3 REPORT ahead of the EC which will clarify all aspects of the EC and answer any questions which the drivers may ask during the Senna Memorial Race or after the STAGE 2 REPORT is published!

WHY THE COMPOUND IS DIFFERENT FOR Senna Memorial Race AND EC?

As the Senna Memorial race is in May and EC is in June/July there will be a big temperature difference between two dates. We are aware that by EFRA rules, compound for the Senna Memorial Race and EC has to be the same but for practical reasons for our track and weather that is not possible. If we use softer tyres that should work well during Senna Memorial Race, on EC those will overheat and vice versa. If we are going to use harder compound that should work well on EC, during Senna Memorial race those tyres wouldn't work. After long time thinking about the tyre compound our decision was based by the strong recommendation, advice and expertise of GRP. As GRP was testing tyres before on our track and they've been here many times, we decided to strongly listen to their advice regarding the compound and what works best on our track during this time of year (temperature wise). We want for the drivers to have a good race and quality tyres that resonate with the temperature which we will face.

During EC and Senna Memorial the price for tyres will be 16€ - AVAILABLE ON TRACK!

MORE DETAILED INFORMATION:

- There will be 4 sets (maximum) controlled timed practice including up to first final inclusive.
- Subsequent bump up final drivers can purchase additional new set of tyres.
- Drivers can purchase tyres and pay directly to GRP on the arrival.
- Drivers can pre order practice/training tyres for use during practice days and first controlled practices. Drivers must order these from GRP, pay directly to GRP in advance and pick them up on the track.
- All drivers for the main final get a new set of tyres (must be purchased at the track paying directly to GRP on arrival at the race)
- Rain tyres available during EC (no need to pre order)
