

## 2023 Section Chairman Report 1/8 Buggy Section

Hello my friends:

We have done an interesting season plenty of races and fun for our drivers.

By April we started our racing season, I visited the Bischofsheim annual race, which was used as a test for us and the Organizer for the Electric EC, some improvements were required out of it and our experience there and helped to have a better EC later on and probably better rules for the future of EFRA.

Our first official event of the year was the **Electric 8<sup>th</sup> buggy** race there, at Germany, in June won by Micha Orlowsky followed by Coelho and Burak Kilic.

Early July we have our **EFRA EC-B**, excellent event, excellent run by the local club of Longvic , superpopular and crowded event with many youngsters, the victory went for Remy Bermudez followed by Adrian Pariente and Mathis Peyre.

Late August we went to Redovan, the RC Cathedral, to have a win over the weather thanks to the collaboration of all attendants, we all win, but the race, our loved **EFRA EC-A**, has a winner and he was Juan Carlos Canas with Booths and Ongaro as the triple medal winners.

Last on the year we had the **EFRA Masters+40** event, our Masters class, at lovely Salchach, and victory went to Martin Forthmuller followed by the brittons G. Alsop and Kevin Brundsen.

You do have available at our EFRA website the complete set of information results out of this 2023 season and the list of drivers not eligible for EC B 2024.

We have received an official dutch communication rejecting the organization of Elektro 8<sup>th</sup> Buggy 2024 event, that rejection was late so we will have to solve it using the 4 different 2025 candidates.

I do believe we are ALWAYS able to improve, what I do like most is that this is not only my feeling but the feeling of my closer collaboratives, Alex & Mark, and as well of many organizers willing to give the Section, the drivers and the industry the better platform to show the world how fun & fair RC racing and RC Motorsport Europe can be.

This encourages me to keep on with the work of the Section for the love of the sport and the scale, thanks to all of you for your kind help and understanding

With my best regards

Carlos Gomez  
EFRA Section Chairman
