The [small Central American](#) country champions the green label for [ecology](#). However, its territory concentrates the greatest biodiversity in the world. It is also the only country in the area without an army, which has contributed to its political stability. In addition, its [landscapes](#) are impressive; Possessing coastlines on both the [Caribbean](#) Sea and the [Pacific Ocean](#), there are some spectacular beaches. There are volcanoes, cloud forests, national parks, beautiful fauna and flora, and a lot of sympathy from its people. Here you will find a selection of the best photographs of Costa Rica. If you want to know more about it, don't miss our reports and news.

BEST LATIN AMERICAN DESTINATION: COSTA RICA

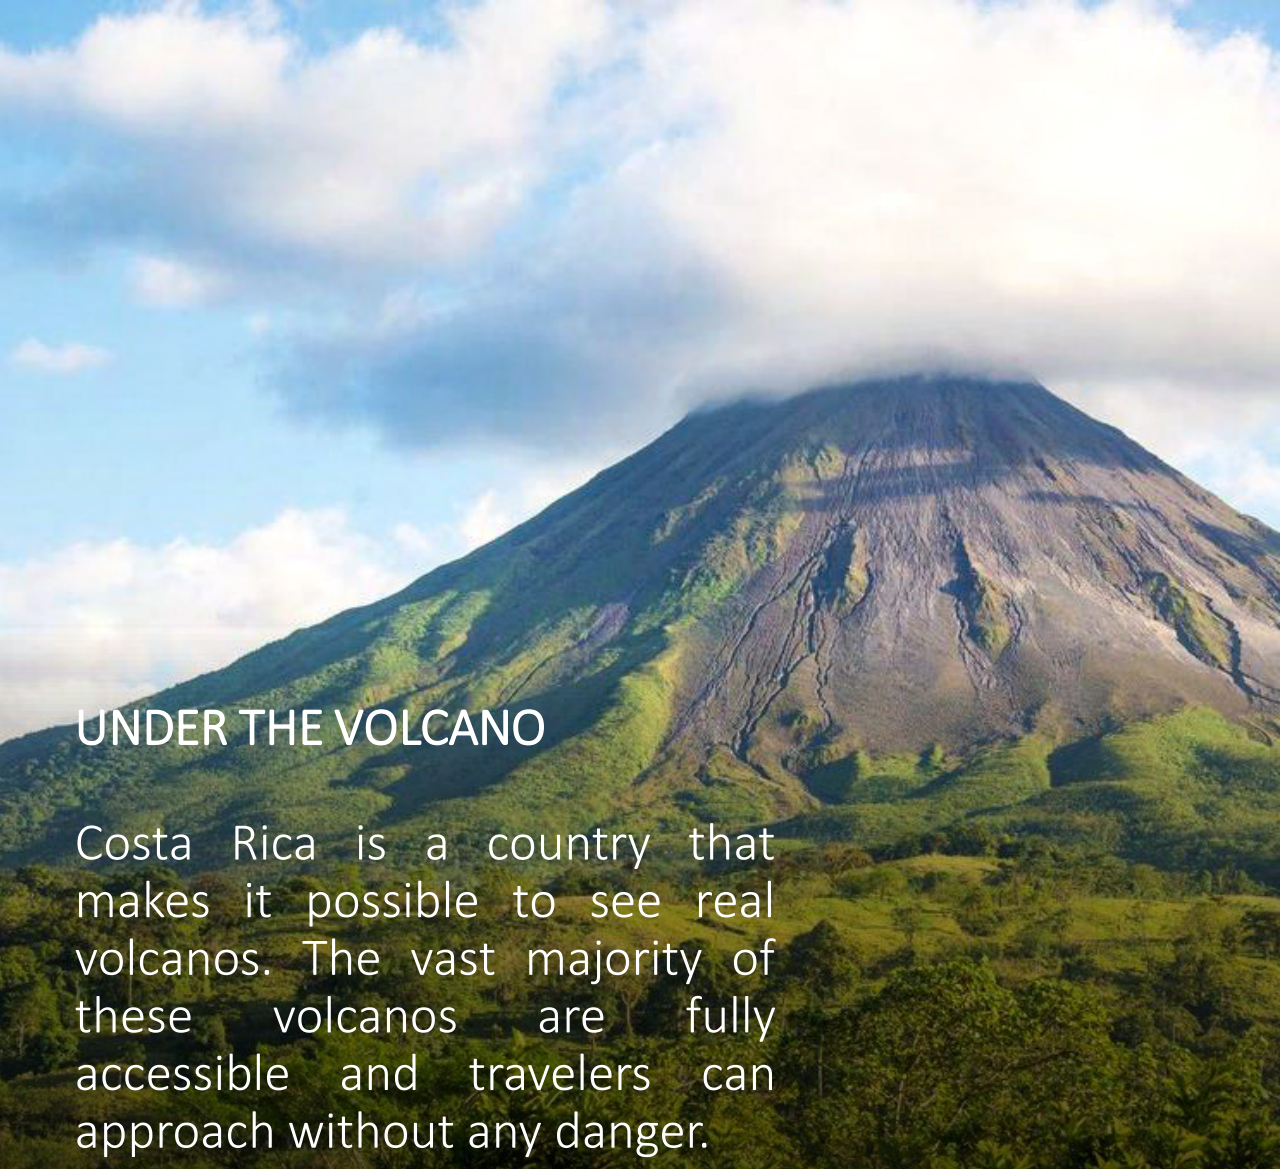

The variety of habitats in this country, wedged between two oceans and traversed by a backbone of volcanoes, has made it the ideal place to enjoy nature. The trip through Costa Rica allows you to enter forests with incredible biodiversity, walk along beaches surrounded by mangroves and sands where turtles lay their eggs, and dive into waters so pure that they attract a multitude of marine species.

NATURE

More than 238 kinds of mammals, almost a thousand birds, 2,400 butterflies, 6,700 marine species... From the friendly sloths, to the unruly white-faced capuchins, including unique frogs and turtles that come to the shore to lay their eggs.

UNDER THE VOLCANO

Costa Rica is a country that makes it possible to see real volcanos. The vast majority of these volcanos are fully accessible and travelers can approach without any danger.

A PARADISE OF BEACHES

Costa Rica is an ideal country for sun and beach plans. Whether on the Pacific coast or on the Caribbean coast, there are beaches of all kinds, from wild and isolated to more accessible and with a hippie atmosphere.

Rafting

Paragliding

Nightlife and Parties:

Costa Rica has many options to offer to the young and not so young. From clubs and bars with a more relaxed atmosphere to others where you can dance and drink late into the night.
