Bergamo Airport (approximately 44 km)

Milan Linate Airport (approximately 80 km)

Parma Airport (approximately 103 km)

Milan Malpensa Airport (approximately 130 km)

# Who we are

In 2006, by the will of a group of young people passionate about model cars, it was decided to build an off-road track near the Ospitaletto (BS) motorway toll booth. Although spartan, it allowed the laying of the foundations for a future well larger dimensions. The continuous growth in the number of members required us to make a decisive leap in quality and so in 2009 Ospy-Team committed itself to the construction of the new track with the support of the Calcio Gussago association and with the financial support of the world's leading modeling company "NOVA ROSSI WORLD srl". In September 2010, in the presence of the owners of "NOVA ROSSI WORLD srl", THE KING OFF ROAD track built by OSPY TEAM was finally inaugurated; Thus a dream of those who collaborated in the creation of one of the most modern and complete systems at a regional level and beyond comes true. Ospy Team is the only manager and thanks to the continuous support of the company NOVA ROSSI WORLD srl it expects to maintain at the highest levels a reality created and desired by NOVA ROSSI WORLD srl itself.
