## Specifications:

The Luxembourg RC track, Mini Circuit “Ville de Luxembourg,” is celebrated as one of the most stunning RC tracks in Europe. Renowned for its high-speed and technical layout, drivers will navigate through fast, long sweepers, tight chicanes, and the world-famous corkscrew corner, often dubbed the “Laguna Seca” of RC tracks.

Our facilities are second to none, featuring a food and drinks bar, sanitary amenities, seating areas around the track, a spacious rostrum, and a permanent and covered pit area accommodating up to 200 pilots. With our exceptional track, dedicated club members, and enthusiastic volunteers, we are confident in our ability to host one of the best European Championships to date.

**“The Track is open”**
