Haukelandshallen, St. Olavs vei 50, Bergen, Norway

CHAMPIONSHIP

26-31 July 2027 - provisional competition dates

WARM-UP

19-21 March 2027 - planned

ORGANISER CONTACT

Anna Søgnesand
ecbergen@bombk.no
www.bombk.no

Final competition dates and the detailed programme will follow confirmation with EFRA.

THE HOST CLUB

BERGEN OG OMEGN MODELLBILKLUBB

Founded in 2006, BOMBK has two outdoor tracks and one permanent indoor 1/10 off-road track. Our members are preparing to welcome Europe to Bergen.

The club’s existing tracks. The championship will use a separate temporary track in Haukelandshallen.

HAUKELANDSHALLEN

AN INDOOR VENUE FOR THE EUROPEAN CHAMPIONSHIP

Haukelandshallen during another sporting event

We will build the championship track inside Haukelandshallen. Indoor racing protects the event from Bergen’s weather and keeps the race programme independent of rain.

Location

St. Olavs vei 50, Bergen, Norway. The hall is accessible from the city centre and the airport by car and public transport.

Event facilities

The venue plan will identify the track, indoor pits, technical inspection, race control and spectator access. Parking, unloading and accessibility details will follow.

THE TRACK

42 × 20 METRES / EOS CARPET

A temporary off-road track, built specifically for the championship. HUDY will supply the EOS carpet through the club's supplier agreement.

Track design

The planned footprint is 42 × 20 metres. The layout will combine jumps with technical sections. Final layout details will follow.

Driver rostrum

The current plan is a rostrum 13-15 metres long and at least 2.5 metres wide, with stairs at both ends. Final construction and access arrangements remain to be confirmed.

Warm-up event

The warm-up is planned for 19-21 March 2027, using the club's existing carpet. The championship will use HUDY-supplied EOS carpet. Warm-up entry information, venue and programme will follow separately.

RACE FACILITIES

PITS / OFFICIALS / TECHNICAL INSPECTION

Indoor pits

Indoor pit areas will be located in rooms adjoining the main hall. We are planning for 1.2 metres of table frontage per driver. The final pit layout and power distribution will follow the confirmed entry capacity.

Race control and timing

Race Director	Kai Koivuranta
EFRA Timekeeper	Uwe Baldes
National Timekeeper	Danny Kwiatkowski
EFRA Referee	To be appointed by EFRA
National Referee	Henning Stavnhaugen
Timing software	MyRCM

Technical inspection

A team of four to five people, including Stian Søgnesand, will carry out technical inspection. A dedicated area close to the track will provide space for equipment checks and control tyre handling.

Marshalling

Clearly numbered marshal positions will be located around the track. Drivers who know they will need a substitute marshal are encouraged to contact the organiser before the event. The club will provide stand-by marshals when needed.

Network and media

Internet access will be available at the venue. Screens will display race information and results. Facilities will be available for media representatives covering the championship.

SOUND & COMMENTARY

SCOTTY ERNST JOINS US IN BERGEN

Marcus, Scotty Ernst and Anna Søgnesand.

We are delighted to welcome Scotty Ernst to Bergen!

A familiar voice and a firm favourite with drivers and fans, Scotty brings enthusiasm, knowledge and excitement to every race. His commentary will help create a memorable atmosphere in Haukelandshallen and keep spectators involved in the action throughout the championship.

Separate audio channels will provide clear race instructions to drivers and commentary for the pits and spectator areas.

RACING & TYRES

OFFICIAL CONTROL TYRES / ENTRY / PROGRAMME

Official Control Tyres - HUDY

The official control tyre for the 2027 EFRA European Championship 1:10 Off-Road will be the HUDY 102 Medium Carpet.

CLASS	TYRE	PART NUMBER
2WD	Front - HUDY 102 Medium	812102-M
2WD / 4WD	Rear - HUDY 102 Medium	816102-M
4WD	Front - HUDY 102 Medium	814102-M

HUDY visited Bergen in March 2026 for tyre testing with the club. Testing continued during an open club race on carpet, giving drivers the opportunity to try the tyres in race conditions. This provided practical experience ahead of the championship.

Tyre allowance: As per EFRA rules. The organiser intends to offer pre-glued tyres if approved at the EFRA AGM. Otherwise, tyres will be supplied unglued in accordance with EFRA regulations.

Final tyre and insert prices will be published once the supply format, pre-glued or unglued, has been confirmed following the EFRA AGM.

Entry capacity

We have planned for 150 drivers per class. This number may be adjusted to comply with EFRA regulations or the final timetable.

Hall opening and programme

The hall will open on Sunday 25 July 2027 for pit setup and tyre preparation only. No driving on Sunday. The detailed timetable and programme will be published later.

TRAVEL & STAY

GETTING TO BERGEN AND HAUKELANDSHALLEN

Bergen Airport Flesland

Bergen Airport is the main airport for the event. Onward transport options include light rail Line 1, airport buses, taxis and car rental. Line 1 serves the airport terminal.

Airport and public transport information:
www.avinor.no/en/airport/bergen/
www.skyss.no

Hotels and apartments

Haukelandshallen is centrally located in Bergen. We recommend searching for accommodation near Haukelandshallen, St. Olavs vei 50. Bergen has dozens of hotels across a wide range of prices, as well as apartments and hostels. Check the map and travel connections when choosing where to stay.

Useful accommodation websites:
www.booking.com
www.hotels.com
www.airbnb.com

Motorhomes and camping

Motorhome parking is available at Bergenshallen in Slettebakken, Vilhelm Bjerknes vei 24. This facility is for motorhomes only. Caravans and tents must use a campsite. Check current availability and conditions before travelling.

DISCOVER BERGEN

HISTORY / CITY LIFE / MOUNTAINS AND FJORDS

Between mountains and the sea, Bergen offers a memorable setting for a European Championship. Its compact city centre makes it easy to combine racing with sightseeing and time with family or teammates.

A city shaped by trade

Founded in 1070, Bergen grew into an important European trading port. The Hanseatic merchants left a lasting mark on Bryggen, the historic waterfront now on UNESCO’s World Heritage List. Explore the narrow passages, wooden buildings, small shops and galleries behind the colourful facades.

Activities for everyone

Visit the fish market and Bergenhus Fortress, explore the city’s museums, or take Fløibanen to Mount Fløyen. Ulriksbanen offers another route into the mountains. Walking trails and fjord excursions give visitors the chance to experience the scenery beyond the city.

Everything for your stay

Bergen offers restaurants, cafés, shopping, supermarkets and public transport. There is plenty for accompanying families to enjoy while the racing takes place indoors.

Find activities and practical information at en.visitbergen.com.

SAFETY & CONTACTS

AT THE VENUE / MEDICAL ASSISTANCE / ORGANISER

Charging and fire safety

All battery charging must take place in a LiPo safety bag. Fire extinguishing equipment will be placed at strategic points in the hall. The venue has clearly marked emergency exits. Keep escape routes clear at all times.

First aid and medical assistance

First-aid equipment will be available, and a designated person responsible for medical assistance will always be present in the hall. A 24-hour urgent care centre and hospital services are only a few minutes away.

Medical emergency: 113
Urgent medical advice: 116 117 within Norway.
Bergen legevakt: Solheimsgaten 9. Call 116 117 before attending.
